OUR DENTAL CLINIC

We offer a complete range of private dental and hygiene treatments, performed by skilled and passionate professionals in our world-class surgery in Albania. Our treatments range from preventative dentistry (including dental hygiene, the treatment of jaw problems and sensitive teeth, identifying gum disease), to specialist dentistry (such as orthodontics, dental implants, endodontics and periodontics), to cosmetic solutions such as teeth whitening.

Our purpose is to distinguish ourselves as a surgery that provides comprehensive dentistry of the very highest quality that enhances our patients' lives. We work for our patients, who at all times will be treated with dignity, understanding and respect.

Our dentists graduated in Dentistry at the Tor Vergata University of Rome

We only use materials manufactured in the European Community with certification of production.

BEYOND BORDERS DENTAL CARE

MATERIALS

We use titanium prostheses of the B&B of Bologna in Italy, a world leader in its field, for each implant we release to the patient an implant passport with the name of our clinic and serial number of the implant.

We use quality certified materials produced by: Ivoclar Vivadent Italy, 3M ESPE Germany, B&B Dental Italy, Coltene Switzerland, Ognia Farmaceutica Italy, Septodont Italy and Betabiomed Switzerland.

Save up to 70 % with us
visit : www.dential.net

Treating your teeth abroad in specialized clinics is a good reason to save money, with us you will have both quality of services and quality of materials.

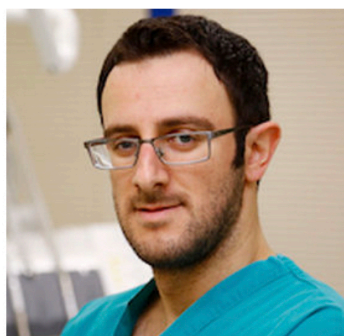

Our dental care costs less than in other parts of Europe due to the fact that the local currency is worth much less, salaries in Albania are lower than in other countries and therefore dentists have to have low prices otherwise they could not work.

A rent of a clinic and staff costs are much lower so that's why in our clinic we can ensure prices on average lower than 60% of other dental clinics in Europe. Today with **low-cost flights** you can come to Albania with **less than € 200** per person, on average a hotel for 2 people costs € 30 per day and you can eat at the restaurant for only € 10 per person.

A rent of an apartment by the sea in the city of Durres costs around € 200 a month, including electricity and water.

Our dentists are graduates in Europe, at the University of Tor Vergata in Rome.

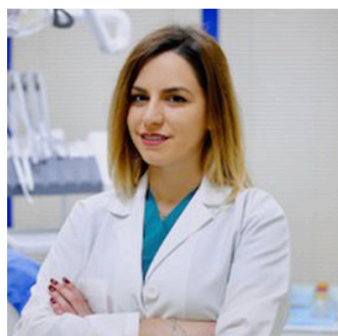

OUR STAFF

Dr. Fehmi Tepelena
Odontologist

Dr. Gezim Gjura
Odontologist

WHY US ?

Staff

We use titanium prostheses of the B & B of Bologna in Italy, a world leader in its field. We use quality certified materials produced by: Ivoclar Vivadent Italy, 3M ESPE Germany, B&B Dental Italy, Coltene Switzerland, Onga Farmaceutica Italy, Septodont Italy and Betabiomed Switzerland.

Material

To protect the health of all our patients, we perform a sterilization process authorized throughout Europe, the sterilization phase of tools and surgical equipment begins with immersion in distilled water mixed with powerful bactericides and biocides capable of annihilating diseases transmissible with saliva and blood.

Sterilization

Today with low-cost flights you can come to Albania with less than € 200 per person, on average a hotel for 2 people costs € 30 per day and you can eat at the restaurant for only € 10 per person.

A rent of an apartment by the sea in the city of Durres costs around € 200 a month, including electricity and water.

Stay in Albania

If you are retired, and you have time to spend as a tourist, Albania offers you many possibilities for fun, you will have the opportunity to visit pristine mountains, beautiful beaches in southern Albania, the remains of cities of the Greeks and Illyrians.

You can visit Albania spending very little, on average a 3 stars hotel in Albania costs around € 30 a day.

Visit Albania & Dental Care

For many people, especially those who have never come to Albania, there is a stereotype that Albania is a dangerous country and that you must be afraid, but in truth, once you arrive you will see that the country is extremely safe and that crime is almost zero.

As per Albanian tradition, the guest or the foreign visitor is welcome, and in any case you will need the locals willing to help you to solve any kind of problem.

Is Albania a safe place to visit?

For many people, especially those who have never come to Albania, there is a stereotype that Albania is a dangerous country and that you must be afraid, but in truth, once you arrive you will see that the country is extremely safe and that crime is almost zero.

As per Albanian tradition, the guest or the foreign visitor is welcome, and in any case you will need the locals willing to help you to solve any kind of problem.
